

## Lamp Switch - SPST (inline)

COM-11477 RoHS

**Description:** This inline switch is great when you just want a simple on/off toggle switch that's already enclosed. Inside is a simple rocker switch with solder terminals with crimp strain relief. Attach some wires, solder them in place, and press-fit the enclosure together and you have a clean-looking switch.

### Features:

- SPST
- 6A, 250VAC
- Press-Fit Enclosure
- Clicky Sound
